Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 1.56..... second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... N/A

3. The water to be used for..... Irrigation & Domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated..... 54.8

(b) Stockwater, state number and kinds of animals to be watered..... N/A

(c) Other use (describe fully under "No. 12. Remarks")..... N/A

(d) Power:

(1) Horsepower developed..... N/A

(2) Point of return of water to stream..... N/A

5. The water is to be diverted from its source at the following point..... within the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section
Describe as being within a 40-acre subdivision of public

16, Township 5 South, Range 69 East, M.D.B.&M., from which the E $\frac{1}{4}$ Corner of
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

said Section 16 bears S 81° 24' E a distance of 2,457.80

6. Place of use..... a portion of the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$, the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$, and the SE $\frac{1}{4}$
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

of the NW $\frac{1}{4}$ of Section 16, T5S, R69E, M.D.B.&M., lying Southerly of the

Union Pacific Railroad Right-of-Way

7. Use will begin about..... January 1st..... and end about..... December 31st....., of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Test well is drilled and is pumped with
State manner in which water is to be diverted, i.e. diversion structure, ditches and
gasoline engine.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works..... \$10,000.00

One year

10. Estimated time required to construct works.....

If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 2 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Domestic Use - Water currently serves one dwelling.

APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

Permit subject to agreement dated April 9, 1991, between Hafen Brothers and Ronald V. Cannon on file in the Office of the State Engineer under Permit 55329.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to

exceed 1.37 cubic feet per second, but not to exceed 274 acre-feet annually, and not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before December 6, 1994

Proof of completion of work shall be filed on or before January 6, 1995

Application of water to beneficial use shall be made on or before December 6, 1996

Proof of the application of water to beneficial use shall be filed on or before January 6, 1997

Map in support of proof of beneficial use shall be filed on or before January 6, 1997

Completion of work filed DEC 6 1994

IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.,
 State Engineer of Nevada, have hereunto set my hand and the seal of my

Proof of beneficial use filed OCT 29 1997

office, this 6th day of December
